

Summer Term 2026

Dosbarth y Gragen

It's planning time!

Our intention in this unit of learning is to encourage the learners to inquire and discover, to be curious and to question, when learning about the habitat of the forest, in Wales and in another area of the world. The learners will be able to appreciate and notice the diversity of living things and develop an understanding that living things need specific conditions to survive. We trust that they will be able to communicate effectively and express their ideas in different formats. We also intend to guide the learners towards making informed decisions by understanding the impact of human beings on the natural world, instilling in them the feeling of responsibility and commitment to ensure the sustainability of the planet.

There are
rainforests in
the Amazon.
Argyle

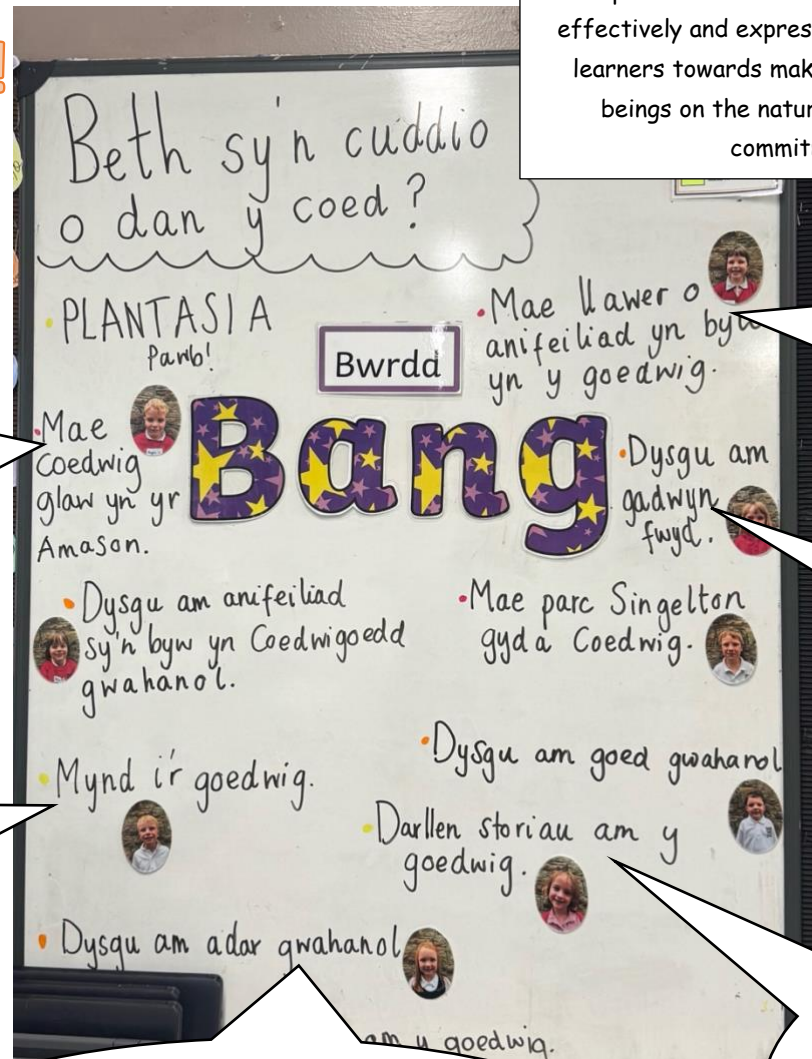

Go to the
Forest!
Rory

I'd like to learn about different
birds.
Maisie

I'd like to read
stories about the
Forest.
Gwennan

There are lots of
animals that live in the
Forest!
June

I'd like to learn
about the food chain
and the animals.
Ebba

Summer Term 2026

Dosbarth y Gragen

This term's unit of learning: What's hiding in the woods?

Here are our ideas for this term:

Health and Wellbeing

- Develop ball handling skills.
- Develop athletic skills and enjoy preparing towards sports day.
- Enjoy working as a team.
- Consider how our decisions have an impact on others now and in the future.
- Enjoy working outdoors and consider the effect of this on our mental well-being.
- Discuss our emotions.

The Expressive Arts

- Learn new songs related to the learning unit and enjoy performing them.
- Study and imitate the work of the artist Henri Rousseau.

Mathematics and Numeracy

- Practice and improve addition, subtraction, multiplication, and division skills.
- Play mental mathematical games.
- Develop skills in measuring, telling the time, using money, and solving problems.
- Practice counting, reading, writing, and arranging numbers.
- Develop skills in handling and presenting data.

Don't forget to visit the 'Pupils section - class pages' on our school website for more information!

www.yggbrynymor.co.uk

Science and Technology

- Enjoy observing and asking questions about the forest habitat.
- Understand that our actions can have an impact on the environment and living things.
- Enjoy exploring the relationship between living things, their habitats and life cycles.

The Humanities

- Learn about the forest habitat in Wales and what lives and grows there.
- Compare the characteristics of a forest in Wales and a rainforest.
- Develop an understanding of the impact of people on the natural world.
- Develop an awareness of how we can care for living things and the environment.
- Understand what 'Fair Trade' is and that our actions have an impact on communities and the environment.
- Learn to appreciate the beauty and wonder of the natural world and enjoy reading 'The Baby Birds', a traditional Muslim story.

Languages, Literacy and Communication

- Create a 'Creature Hideout' roleplay corner.
- Read and listen to a variety of stories and non-fiction books.
- Keep developing our reading skills.
- Enjoy writing in different ways, including a postcard, presenting information, and writing creatively.
- Continue to practice our spelling and learn to form letters correctly.

Visits/Experiences

- Visits to Singleton Park.
- A visit to Plantasia to learn about the rainforest - date to be confirmed.
