Our intention in this unit of learning is to foster an appreciation of the rich musical and cultural heritage of Wales. We aim to inspire our pupils to be creative, curious and innovative, so that they are able to explore and express ideas confidently. By engaging with the traditions and achievements of Welsh musicians and composers, we hope to foster empathy and respect for the cultural contributions of others. By designing and creating our own musical instruments and performing together, we hope to develop cooperation, communication skills, and self-confidence. By the end of this unit, we hope to nurture a sense of pride in our cultural identity and an appreciation of the role of music in our lives.
