

Dear Colleagues/Annwyl Gyfeillion

Healthy Schools and the School Nursing Service have put together the information below about vaccinations and the programmes available in schools. You are kindly asked to add this information on to your website.

Vaccination information for school websites

Healthy Schools and the School Nursing Service have produced the information below about vaccinations and the programmes delivered in your school by the School Nursing Service. We would be grateful if you could include the information on your school website and cascade via any other communication mechanisms that you use and feel would be appropriate so that information and links to up-to-date NHS and Public Health Wales websites are available for pupils, parents and carers to access.

Many Thanks

Primary info:

Vaccinations

Second only to clean drinking water, vaccinations are one of the most effective ways to protect the public against a variety of infectious diseases. The World Health Organisation estimates that 3 million lives are saved every year worldwide through immunisation. The nasal flu vaccination is offered in school by the School Nursing Service who will provide information to you prior to the programme being delivered along with a consent form that will need to be signed by a parent/guardian and returned to the school. Brechiadau

Yn ail i ddŵr yfed glân, brechiadau yw un o'r ffyrdd mwyaf effeithiol o amddiffyn y cyhoedd rhag amrywiaeth o glefydau heintus. Mae Sefydliad Iechyd y Byd yn amcangyfrif bod 3 miliwn o fywydau yn cael eu hachub ar draws y byd bob blwyddyn trwy imiweiddio. Mae'r brechiad fflw trwynol yn cael ei gynnig yn yr ysgol gan y Gwasanaeth Nyrsio Mewn Ysgolion fydd yn rhoi gwybodaeth i chi cyn darparu'r rhaglen, ynghyd â ffurflen ganiatâd y bydd rhaid i riant/warcheidwad ei llofnodi a'i dychwelyd i'r ysgol.
